QUIET IS RESTORED IN BOSNIA; BODIES ON WAY TO CAPITAL

NO FURTHER OUTBREAK THREATENED IN PROVINCE WHERE AUSTRIAN ROYALTY WERE MURDERED.

CITIES IN MOURNING

Flags Fly at Half Mast While Population Kneels and Priests Offer Blessings as Corpus Passes.

[BY ASSOCIATED PRESS.]

Sarajevo, Bosnia, June 30.—The night passed quietly in this city. Six persons were arrested for slight of persons.

Reports from other districts of Bosnia today say the disorder has virtually ceased.

The perpetrators of Sunday's outrage are to be tried before the civil court and not under martial law. Nedeljko Gabrovic, who threw the bomb at the archduke and his consort on Sunday, will be liable only to imprisonment, in period from five to ten years.

Start With Bodies.

Metkovich, Habsburg, June 30.—The bodies of the Archduke Francis Ferdinand and the Duchess of Hohenberg, arrived here on a special train at six o'clock this morning from Sarajevo.

The town was draped in black. All the lamp posts were covered with crepe, and flags on all buildings flew at half mast.

Guards of honor from the army and navy were drawn along the platform and held a minute's silence. Authorities, the school children of the town and a dense crowd of citizens.

The coffins were removed from the cars by blue jackets. After a prayer by the priest, they were conveyed to the roll of muffled drums and the tolling of churchbells to the royal yacht. Dalmet, lying in the river. They were covered with military flags and wreaths, while on the yacht there were hundreds of floral offerings from military and naval officers and civilians.

Deep Reverence Shown.

As the cortege left, the guards of honor fired a salute. The vessel was preceded on the river by a torpedo boat and was followed by the governor's yacht, on board of which were the members of the household of the Archduke and Duchess. The governor also accompanied the bodies while they remained in the waters of his territory.

Every village and hamlet along the river Narenta was draped in mourning and the population headed by the commanding officers and clerics assembled along the banks. The men and women were bearing lighted candles and kneeling, while the church bells tolled and the priests uttered blessings.

Break News to Children.

Vienna, June 30.—The news of the death of Archduke Francis Ferdinand and the Duchess of Hohenberg was broken to their children at seven o'clock Sunday evening. The children broke down at their aunt, the Countess Clary, in tears.

The Asbach said today that the late Archduke's life was insured for \$12,000,000 and that of his wife for \$6,000,000.

The will of the late Archduke was found and opened by Emperor Francis Joseph. The archduke's children are said to inherit their late father's estate in Bohemia and that Salzburg and Austria and the rest of the estate, including the famous Villa Tivoli at Florence, are to go to the new heir to the throne.

Blank Propaganda.

Vienna, June 30.—According to the opinion expressed by high government officials, the plot which resulted in the assassination on Sunday of Archduke Francis Ferdinand and his wife, the Duchess of Hohenberg, at

Sarajevo, owed its inception to nationalist propaganda, which originated in Servia. This propaganda took deep root among certain elements of Servia's population of Bosnia.

NEW RIOTS FEARED AT MINERS' MEETINGS

Sessions of Two Locals at Butte Tonight May Cause Another Outbreak.

[BY ASSOCIATED PRESS.]

Butte, Mont., June 30.—Meetings of the two miners' unions in Butte are expected to be held tonight. One by the Butte local No. 1, Western Federation of Miners, and the other by the independent, known as the Butte Miners' Union.

Threats have been made that the meeting of the Butte local of the federation would be broken up, as was the meeting of last Tuesday.

GETS FULL PARDON; SERVING LIFE TERM

Wood County Man Convicted in 1887 of Murdering Wife Will Secure Liberty.

[BY ASSOCIATED PRESS.]

Madison, June 30.—Convicted of first degree murder for the death of his wife, Lottie Perkins, December 29, 1887, and sentenced to a life term at Waupun, Minor S. Perkins of Wood county will breathe the air of freedom in a day or two. Full pardon, with the restoration of his rights as a citizen, was passed by Governor McGovern.

The lamp posts were covered with crepe, and flags on all buildings flew at half mast.

Guards of honor from the army and navy were drawn along the platform and held a minute's silence. Authorities, the school children of the town and a dense crowd of citizens.

The coffins were removed from the cars by blue jackets. After a prayer by the priest, they were conveyed to the roll of muffled drums and the tolling of churchbells to the royal yacht. Madison, Wis., June 30.—Willits Pollock, a Milwaukee student at the University of Wisconsin, who won the Harris Political Economy prize this year has been appointed to make a classification and standardization of the Milwaukee municipal purchases under the Bureau of Municipal Research.

[BY ASSOCIATED PRESS.]

Glasgow, Scotland, June 30.—The liner, Cassandra, arrived here today with 695 passengers of the steamer California, which is ashore off the coast of Donegal. The remainder of the California's passengers landed at Londonderry yesterday.

The passengers reported that during their transfering from the wrecked vessel, a Glasgow man named Hood, was injured. There were no other casualties.

SUICIDE IS BURIED IN POTTER'S FIELD

Letters From Mrs. Fitzgerald Show That No Divorce Was Known to Have Been Granted.

In a letter received by a Janesville friend of Mrs. Edna Fitzgerald of Grand Rapids, Michigan, it is stated that her husband, who committed suicide June 25th by asphyxiation, was not divorced from his wife as far as she knew.

The belief gained that the suicide had obtained a divorce from his wife was from receipts found on his person for ten dollars for alimony. The receipt had been signed by an official of a court in Grand Rapids. The letter received declared that Mrs. Fitzgerald left her Janesville home which had been a happy home to care for her mother in Grand Rapids. It was Fitzgerald's intention to follow, but a friend who has figured in the case extensively, had such an influence over him that he could not break away until his wife went after him.

It is declared that the husband then could not remain away from the woman despite that his wife was a worthy woman and a true mother. When the home was broken up, trouble caused Fitzgerald to forget his happy married life and he was gradually driven to end his own life as shown by the letter which he wrote before his death.

Mrs. Fitzgerald, left without support for herself and child, worked hard for her livelihood. The letter is closed with the following remarks:

"We may think we are getting the worst of it, but God only tries us out and being true to those near to you, will be rewarded."

Yesterday afternoon the body of Albert Fitzgerald was laid to rest in Potter's field, Oak Hill cemetery, without services, without friends, even those whom he had been acquainted with for the last year not being present in a pauper's funeral.

ABE ATTELL TRIES "COME-BACK" STUNT

Famous Ex-Feather Champ Meets Chick Hayes at Indianapolis July Fourth.

[SPECIAL TO THE GAZETTE.]

Evansville, Ind., June 30.—Abe Attell, former featherweight boxing champion of the world, and one of the most famous of all ring title holders, makes what will be, if he falls, his final attempt to "come back" here the afternoon of July 4th when he meets Chick Hayes of Indianapolis, in a ten-round bout. Should Attell lose to the Indianapolis boy he declared he will never don a padded mitt in the squared circle again. If, on the contrary, he wins in decisive fashion he will follow out a hard campaign to land another bout with Johnny Kilbane, present featherweight champion of the last to test the title from Attell.

Mayor Boss, following the news that apparently is popular with Indiana visitors, passed out the word that this fight would not be staged in Evansville. By a fortunate chance, the Ohio river runs right by this town. There is an immense river barge here, which holds nearly 1,800 people. The bout either will be staged on that barge or across the river in Kentucky, where they like to see a good fight.

Attell has made several starts since he lost to Kilbane, some of them bad and some good. But this bout with Hayes, however, he declares that he means it will be because he is not "there" any more and that he is done forever as a boxer.

Abe Attell won the featherweight championship of the world in 1905 and held it until February 22, 1912, when he lost a twenty round decision to Johnny Kilbane. In the time he held the belt, Attell fought almost continuously, often meeting lightweights because there were no "feathers" capable of giving him a battle. While he reigned he was one of the most popular champions who ever lived.

In Chick Hayes, Attell is meeting one of the top-notchers of the bantam-weight division. Hayes' normal boxing weight is 112 pounds. In meeting Attell he is handicapping himself by eight pounds but he expresses supreme confidence that he can do that and still stop the former featherweight champion inside the limits of ten rounds. Hayes, if he beats Attell, intends to go after the new bantamweight champion, Johnny Williams, for a bout for the bantam title.

It appears that umpires enjoy a neat little joke occasionally, too. The fan might think that an umpire is hardly human enough to see any fun in anything, but they do just as the same. When Rigler first signed as a National league ump, he was looked up to by the rest of the umpire staff. "I'm much the same way that ball players are," he said. "I'm not much good at the game but I'm a real fan." The fans were in the league office when Rigler first reported for duty. Hurst, after being introduced to Rigler, asked him if he had brought his umpire shoes with him. Rigler explained that he hadn't and that he planned to get a pair while there in N. Y. "Fine," said Tim, and then he told Rigler about the best place to get them. He gave him a card and hurried him away. As soon as Rigler had left, Hurst called up a friend whom he had mentioned and put him wise. When Rigler appeared the clerk searched around for his size and then said he was sorry but they didn't have it. He urged him though to go to Blanks as the next best place in town. And then he called up a friend at Blanks and tipped him off. In this way Rigler was kept trotting from one store to another till finally he got wise. The memory of which little boy has tickled Hurst for quite a while.

The Washington Senators feel that they have a real bet in Pitcher Jim Shaw. Thus far he seems a little wild, but he is said to have all the stuff. He is a giant in size, being one of the biggest men in the league. In a general way he is a combination of Walter Johnson and Amos Rusie.

Being the highest paid player in the game isn't always the joy that might be thought. At any rate Tris Speaker has his troubles in Boston. If he doesn't get a beautiful bunt every time he approaches the plate the fans hoot him to a fare-yay. In a recent series with the American Fris had been having a batting slump and his hits during the series were few. The fans wouldn't let him forget it. After a bit of that sort of thing Tris Speaker got real fussed about it and clearly showed his vexation. When walking back to his position in the outfield after an inglorious turn at bat, he made it clear to the fans in the bleachers that he was good and sore by shaking his fist at them and mowing faces. And he was glad to be away on the western trip.

If Gilmore, the Fed leader, were real crafty he would arrange to have Ty Cobb engage in a few more fights with butchers. Ty is said to have fast so grieved over the affair that he

threatened to jump to the Feds if much was said about it. Perhaps after another such incident or two he really will jump.

Manager Birmingham, Larry Vean, Doc Johnson, Joe Jackson, Vean Green, Bill Stearns, and French Fred Blandino, all of the Cleveland Naps, own automobiles. Which isn't so remarkable as in the amount of time they spend in them. And Cleveland fans and sport writers are complaining. They asseverate that it's the auto bug that has played hob with the team's chances this season. The players are so interested in their cars that they leave little time to think about baseball. They drive to the park in their cars and drive home again and they would do their trips away from home in their machines if they could manage it.

It must be that Charlie Carr's baseball academy didn't pan out as well as had been planned. He has signed up with the Feds. Quite a few are now expecting Amos Rusie and Pop Anson to come back.

LIVE ISSUES.

Sentiment throughout the state is that the coming state campaign is to be fought out on live issues. That means state taxes, state administrative discrepancies, state issues entirely with nothing to do with national affairs whatsoever. The Milwaukee Sentinel looks at the matter logically and takes as a text for an editorial on this subject an extract from the Wisconsin Record Herald's views on the same subject. This voices the sentiment throughout the state so generally that it is reprinted below.

"Editor Sturtevant warns our 'progressive' friends that in the coming state campaign they will have to meet the issues of today rather than of 1900."

"Exactly. And that warning contains a 'bunch' for the conservative campaigners."

"Whatever their chances may be, they certainly have the advantage of being on the popular side of the main state issues of today, which boil down in the mind of the average voter to the high taxes. That they have the advantage is plainly demonstrated by the fact that their 'progressive' opponents are making frantic efforts to edge over on the same side by talking economy and retrenchment."

"Now the conservatives being all right on the issues of today, and the 'progressives' being on the defensive on those issues, the conservatives must pin their opponents down to the 'issues of today' (as they have a right to do, for those are the real issues), keep them explaining and apologizing for the mess they have made at Madison, and refuse to be dragged into antiquarian disputes about the musty issues of a dozen years ago which every sensible man is sick and tired of hearing about."

"Of course the 'progressives,' when challenged to defend their own works and discuss present day issues, will try to change the unpleasant subject and back up the discussion to the factual squabbles of long ago."

"But the campaign of 1914 can not be fought on the issues of 1900; and the question that interests the voters is, not what certain 'old stalwarts' did a dozen or twenty years ago, but, what has been going on at Madison in the last two or three years—and with a good deal of it the people are expressing their extreme dissatisfaction in no uncertain tones."

"So the more those responsible for these recent doings try to divert attention from them, and to seek re-election on the factional dead issues of long ago, the more they should be pinned down to the live issues of the present day."

"Let the dead past bury its dead. It is high time for the republicanism of Wisconsin to take stock of the needs of the present and the possibilities of the future, charge off the ancient accounts and outlawed issues, and pave the way for fresh and fair start in business as a real party on a good government at a resonable cost basis."

"The 'progressive' republican voters surely can not reasonably object to that proposition. The Madison convention platform ought to suit them, and they must admit there is much to be said for the ticket, as compared with the candidacies of other gentlemen whose chief campaign stock in trade is a showman stock of dead issues and state epithets, confessions of extravagance, and promises to reform if the people will hire them over again."

"Why not hire a new set of men, and see what they can do? So far as the state taxes go, they are reasonably certain to do much better, and very certainly can not do worse than this penitential regime of confessed spendthrifts of public money."

here and now to mention its high power of iteration, one of the most influential factors in all forms of advocacy, commercial or otherwise. To read any form of persuasive appeal six or seven times a week, instead of once a week or once a month, obviously is to subject oneself often to the likelihood of taking particular notice of the plea. Or to put the matter in quite another way, any person wanting knowledge of what to buy and where to buy it, is more likely to be served with his desired information in time to make it serviceable. If he gets his facts day by day rather than week by week or month by month. Here, of course, is where the daily paper serves through its contemporaneity. Add this to the quality of iteration and it makes a combination difficult to surpass. A medium of publicity that will say oftenest for the advertiser to the reader and buyer what the former wishes the latter to know, and that will soonest bring to the purchaser any up-to-date information he may wish to have, is in particular demand, and statistics of recent years show where the large advertisers' appropriations are going."

AMUSEMENTS**MADAME ELLIS AT APOLLO.**

Madame Ellis satisfied the most skeptical and amazed those who came to scoff last night in her wonderful exhibition of so-called mind reading. Many were the tests that were applied to her and to each test she invariably gave the correct solution.

The theatre was crowded, the majority of which expected to trip her in this they were not successful if their tests were sincere. Madame Ellis' attendant came down through the audience, touched things here and there and she, blindfolded securely on the stage, would describe them. She would read addresses on letters give the impression in odd colors the numbers on bills, the size and price of a hat and in fact only needed to have the attendant's attention called to an article or question and she would correctly answer or describe it.

Madame Ellis will be at the Apollo tonight and Wednesday. Those wishing to ask questions concerning lost friends or possessions are invited to call.

Mary Pickford will be seen again tonight in "Hearts Adrift," a Famous Players feature picture.

Who Has An Aeroplane?

Search is being made for aeroplanes in the city of Janesville. Frank L. Smith, city assessor, is making an industrious hunt for any aerostatical inclined person in this city who has got either a biplane, monoplane, bat-tail, dirigible or any air craft that can be included in the city tax roll for the coming year.

For the past two months Assessor Smith has covered out horses, cows, buggies, wagons and every kind of movable vehicle that a tax could be plastered on.

The next step was to find the automobiles, and it is safe to say none of the power push-carts escaped Mr. Smith. This was not all—motorcycles came next and then launches. Now it's aeroplanes. As the state does not license the operating of the flying machines, Assessor Smith has to do his own detective work in finding this species of property.

As yet the efforts of Assessor Smith have not been rewarded, but at the meeting of the Board of Review some aeroplane owner may appear before the body and demand a lower assessment on his "sky-bird."

MEDIUMS OF PUBLICITY.

There is no medium of publicity that equals the daily newspaper. Gradually even manufacturers are coming to recognize that this is the legitimate field for exploiting their products and the results are most surprising. One evidence of the value of the newspaper advertisements was demonstrated by the Gazette most recently. An advertisement was run in several issues for the sale of an article in a store located in an adjacent city, not handled in Janesville by any dealer. The advertising contract expired and the manufacturer wrote the Gazette, stating that his trial of this paper had been most satisfactory and that he obtained startling results.

The Christian Science Monitor, in speaking of mediums of publicity, said recently:

"Few facts in connection with advertising stand out as clearly as the contemporary demand of the advertiser that he get what he pays for. The machinery for probing, auditing and publishing facts about periodical publications, whether alleged or real, increases each year in complexity of detail and vigor of application. The 'say so' period is past. Men who are to use 'mediums' want 'to be shown.' This being the trend, some of its products are interesting. For one thing, it has restored the daily newspaper to pre-eminence and recognized worth as a bringer of business to persons, institutions or corporations seeking buyers of their goods, properties or services. Confirmation of this estimate has just been made to the national electric light and power convention by a special committee of investigation charged with the duty of bringing in comparative rating."

Former Matron of Evansville Seminary succumbs After Long Period of Invalidism.

[SPECIAL TO THE GAZETTE.]

Evansville, June 30.—Mrs. L. B. Webb passed away yesterday afternoon shortly after two o'clock, after a year's illness.

Her maiden name was Miss Eliza Jenkins. She was born in Jenkinsville, Wisconsin, 1854.

Twenty-three years ago she was united in marriage to Rev. L. B. Webb of this place. The family made Evansville their home for ten years, while they moved to California, remaining there until about a year ago, when they returned to Evansville.

Though Mrs. Webb has been in poor health the past year, her death came unexpectedly.

Decedent has served as matron of the Seminary and was much interested in the work of that institution.

She was a member of the Free Methodist church of this place.

She leaves to mourn her loss her husband, two daughters, Zita and Florence Webb, also one son, Douglass.

Funeral services will be held at 10:30 a.m. Wednesday at the home and 10:30 at the church, interment being here.

On Thursday evening a class of nine candidates will be initiated into the Woman's Relief Corps, which will be the largest class ever initiated at one time into the local order.

Comrades of the Grand Army are now admitted into the meetings of the W. R. C., all of the comrades are earnestly requested to be present. A social hour will follow the meeting and refreshments will be served.

The president of the corps request all officers to be present.

Mr. C. D. Barnard and Mrs. F. W. West have returned from Minneapolis where they have been visiting Mrs. L. Lees.

F. W. West and Claude Rogers, who have been spending two weeks on a fishing trip in northern Wisconsin, have returned home.

Mrs. Claude Rogers, who has been visiting her parents, Mr. and Mrs. Frank Newman, at Chetek, returned home Saturday evening.

George W. Gillman of Beloit, who has the contract for paving Main street, was in the city Monday. It is planned to start operations next week.

Mr. and Mrs. Nay Gillman spent Sunday with Mrs. Gillman's mother, Mrs. Worthing, in Magnolia.

George Fenn of Magnolia, was in town on business Monday.

Mr. and Mrs. Krause and Martin Wilder, end lady friend of Brooklyn attended the dance at Lake Kegonza Saturday evening.

Mrs. R. E. Clark of Brodhead was the weekend guest of her parents, Mr. and Mrs. O. C. Colony.

Master Eugene Ballard, who has been spending a couple of weeks at the home of his grand parents, Mr. and Mrs. E. Harris, returned to his home in Union Sunday.

D. C. Goodnough is on the sick list.

Mrs. Kimberly has been entertaining a sister from Madison for a few days.

Mrs. Martha Lee has returned from a few days' visit with her son's family in Brodhead.

Dr. Hoag has returned from Milwaukee, where he has been taking several weeks in review work.

Mr. and Mrs. Robert Frazier were in Janesville Sunday.

Frank Hyne, E. H. Fiedler and F. W. Gillman were in Janesville Monday night on fall work.

Bon. Winn, of Beaver Dam, a former resident of this city, was in town Monday calling on old friends.

Harry Chad, a junior Electrical Engineering student at the University of Illinois, is employed at the Creamery. Mr. Chad is a native Hindu, who is working his way through college.

Henry Loomis, Wm. Smith, and E. E. Edwards motored to Blanchardville Friday to attend the Field Day there.

They reported some very bad roads, and that the rain interfered with the program considerably.

As yet the efforts of Assessor Smith have not been rewarded, but at the meeting of the Board of Review some aeroplane owner may appear before the body and demand a lower assessment on his "sky-bird."

LAST ISSUE PRINTED OF THE SEMI-WEEKLY

SEMI-WEEKLY GAZETTE HAS PASSED OUT OF EXISTENCE.

STARTED IN AUGUST '45

As A Weekly, Later Printed As Semi-Weekly, Then As Daily and Semi-Now Only As Daily.

On July first, tomorrow, the Semi-Weekly Gazette becomes part of the Daily Gazette and the one edition will be issued to all subscribers hereafter. The change was made necessary for business and economic reasons and the entire energy and the Gazette organization has concentrated upon the daily edition and its present high standard will be enhanced thereby and its facilities for handling the increased circulation improved by the introduction of new machinery of the latest and most modern type.

Today there are few newspapers in the country that still cling to the old art of publishing a semi-weekly and daily paper. The demand for quick news service, news of the day published every day it occurs, brought about the change. The Gazette is peculiarly fitted to furnish this news being a member of the Association Press, the largest news gathering association in the world, and the only member of this association in the afternoon newspaper field in Southern Wisconsin.

To meet this demand for the news of the day on the date it occurs the owners of daily and semi-weekly papers have dropped the semi-weekly publication and merged the two issues into one. It is economical to the advertisers as well as to the publisher and gives the man who has something to sell a wider scope for his publicity and a quicker expectation of returns.

The merging of the two editions into one recalls the history of the Gazette itself. It is nearing its sixtieth year as a publication but one or two papers in the state being older. Today it is equipped with the most modern of newspaper machinery, its offices furnished with every labor saving device known to the printers trade and supplied with the daily wire service of the Associated Press, the mail service of the United Press, the feature service of the Central Press Association of Cleveland and the daily and semi-weekly letters of hundred odd correspondents located in all parts of the country and state.

On the 14th day of August, 1845, the first number of the Semi-Weekly Gazette was published by Levi Alden and E. A. Stoddard. The facilities for handling the news and printing the paper were meager. Janesville was a frontier town; a straggling village. Mr. Alden had come from the east bringing with him an old fashioned hand press. By good hard work two hundred and forty papers could be printed in an hour and this meant extra labor and lots of muscle.

Mr. Stoddard soon retired from the paper, selling his interest to W. P. Tompkins. The first office was in the second story of the block that stood where the People's Drug Company and Rock County bank now are located. In 1846 Tompkins tired of the work and sold to Mr. Alden, who became sole proprietor for some time, later associating W. H. Graton with him in the business.

During this period Ellis Doty was foreman of the news room. Later Stoddard, O. P. Martin and then Charles Holt. In 1848 Holt bought a half interest from Mr. Alden and the firm name was changed to Alden & Holt and the office moved from its old quarters to the Empire block over what is now Sutherland's book store.

Meanwhile the old hand press was used and it was not until 1859 that a new one was secured through purchase of the Free Press when a Gershey was obtained. With this press five hundred papers an hour could be printed. The location of the shop was also moved, this time crossing the river to the building where Howard's Dry Goods store now is. They remained here but a short time however, returning to the east side of the stream the following year and locating on the Lander block, where the Hayes' book store.

Previous to this the paper had been a morning sheet but now the change was made and it became an evening paper. Whig in politics since it founded; it became republican in 1854 when that party was formed and has never changed its politics.

About this time Mr. Wilcox became a member of the firm which was known as Holt, Power and Wilcox, Alden having retired. In 1861 Thompson and Roberts purchased the paper and it was during their ownership that the establishment was moved to North Main street, in the Holdredge block where it remained until moved to its present home in the Postwick building.

A new press was secured with this change, a two revolution cylinder Taylor. Rumor has it that this press was built for the Philadelphia Ledger and was used on the Detroit Free Press before coming to Janesville. It proved a good investment and was used for many years in publishing the Gazette.

In the early 70's, Colvin & Bintell became the owners, continuing the same policy as previously. In 1873 H. F. Bliss and William Gladia, purchased of R. L. Colvin the controlling interest in the paper. Nicholas Smith was at that time a stockholder and editor, retiring about 1890. J. C. Wirth and J. G. Hayner became stockholders at this time. In 1894 Mr. Bladon retired from the company. E. F. Novlan became a stockholder and secretary in 1895.

Arner several days ago served out a "last chance" term and his celebrating last night ended up in the police court, where the defendant came to grief. Arner was charged with second offense drunkenness and after waiving his examination, pleaded guilty to the charge. During the six-months sentence under the commitment law, Arner's earnings will go to his relatives.

The Evening Chit-Chat

BY RUTH CAMERON

WHAT HATEFUL WORD "MUST" creatures known as human beings are. A little neighbor of mine is just of an age to take an interest in everything her mother does, and wants to "do it too." The other day when she saw my mother dusting she begged for a duster of her own. Her mother, who is a practical Montessori, at once supplied her with one stone, that is to train the baby to be useful, to keep her to dust the lower part of the furniture. So she made up her mind that the baby should repeat that half hour every day or two.

Yesterday I asked her how her scheme was working out. "It isn't working at all," she answered. "It was all right as long as the baby thought she was playing, but when she realized it was something she had to do, she didn't want to do it anymore." How instinctive is that which is with all human children, young and old. We resent compulsion. We long to be absolutely free. That is it is a privilege to do it, and we will delight in the best kind of work. Witness, for example, how Tom Sawyer, that clever character student, persuaded his boy friends to paint his fence for him, by making them think it was a privilege. Nay more, as you probably remember, he not only got his fence painted without effort on his part, but he charged the boys for the privilege and they were glad to pay.

On the other hand, apparently easy and fascinating work becomes a hated task when one has to do it.

"Arizona is a delightful place to live in," I said to a consumptive doctor whom I met on his rounds near Flagstaff." writes Dr. Cabot in his new book, "Oh, yes," he answered, "if you don't have to live there."

A man will toil with tremendous energy at his avocation and think nothing would make him so happy as to do just that kind of work all the time. But let some turn of opportunity's wheel make it his vocation, and lo, he finds that half the flavor is gone.

Perhaps I have explained this feeling wrongly in attributing it to our love of freedom. Perhaps it's simply one more phase of the eternal "a man doesn't run for a car after he gets it's attitude." What we can't have all we want or do it work, love, pleasure, or anything else in the wide world, is always gilded with a wonderful lustre and this lustre invariably vanishes with full attainment.

Must this always be so?" you ask. Well, perhaps it may change when the sun starts to revolve about the earth, or to be more poetic—

"When the years grow old
And the stars grow cold
And the leaves of the Judgment Book unfold."

Household Hints...

THINGS WORTH KNOWING.

Save your old stocking tops, and when canning season comes wrap the canned fruit in them by slipping over the can. This keeps the fruit better, as no light can get in.

Camphor will remove white spots from the furniture and it will also take out fresh peach stains from table linen, if the camphor treatment is followed by soap and water.

Velvet that has been used can be made to give additional service if it is changed into piano velvet. To do this simply iron on the wrong side.

To polish a black marble clock rub over with olive oil and finish with a clean chamois leather.

THE TABLE.

Green Pea Broth—Drain the liquor from a can of peas, cook them until soft, then rub through a colander. Thicken a quart of milk with a tablespoonful of flour rubbed into two of butter, stir the mashed peas into this, boil up once, stirring steadily; season with salt, and a teaspoonful of sugar, and serve.

Fake Halibut—Lay a piece of halibut weighing about four pounds in cold water (salted) for half an hour;

then wipe dry and lay in a covered roaster. Pour over it a cupful of boiling water, in which has been melted two tablespoonsfuls of butter. Bake until tender and keep hot on a platter while you thicken the gravy left in the pan with a rounded spoonful each of lemon and onion juice, a little celery salt and a wine-glassful of claret. Strain and send to the table in a gravy boat.

Banana Blanc Mange—Soak a tablespoonful of gelatine for an hour in a teacupful of water. Bring a cupful and a half of milk to the boiling point, add a pinch of baking soda and stir in a half cupful of sugar and the soaked gelatine. Boil for five minutes, stirring steadily.

Line a jelly-mold with sliced bananas and pour the lukewarm blanc manger carefully upon these. Set in the ice box to firm. Turn out and eat with whipped cream.

Apple Salad—Chop one-half pound of cold veal or lean pork and two large tart apples; add two chopped pickles, one tablespoonful of olive oil, one tablespoonful of vinegar, season with salt and pepper and mix with mayonnaise dressing.

Heart and Home
By ELIZABETH INGRAM

Dear Mrs. Thompson: I am a girl of twenty-one. Have pretty black hair, but it is turning gray already. I have noticed a few for a long time; now they are increasing. They turn gray at the root and at the ends, they have their natural color. My hair is very oily and full of dandruff. Could you tell me what causes this turning gray, and whether there is anything that I could do for it that will not harm the hair otherwise?

WORRIED. It is almost impossible to keep the hair from turning gray when it has once started to do so.

The best thing you can do is to keep your health good. Get outdoors

as much as you can and eat nourishing food.

Give the hair an egg shampoo every two or three weeks and every other day rub a bit of yellow vase-line or castor oil into the scalp. Massage the scalp every day and brush the hair well daily with a brush that reaches the scalp. It may be a diseased condition of the scalp that is turning the hair gray. Rubbing little alcohol on the scalp or giving the hair a sennitene bath now and then helps matters. When using kerosene do not get near fire of any kind; do not light a match or get near a burning lamp or gas jet.

Dear Mrs. Thompson: (1) I am fifteen years of age and am going with a fellow twenty-four years old, although he looks like a boy of nineteen or eighteen years. He is very kind to me. He comes over to the house and is very polite, and my parents do not object. I love him dearly and he loves me with all his heart. Do you think I am doing right?

(2) My friend has light brown hair, grayish blue eyes, small nose and mouth and regular features. Do you consider him pretty?

(To be continued.)

(3) The girls are all trying to take him away from me, as he is a nice looking fellow. They tell him things which are not true. When he comes to see me he tells me the things, but he does not believe them. He says he will believe me only. Do you think he's doing right? M. R.

(1) I think you are two young to be good friends with this man without thinking you are in love with him. He probably loves you as a big brother.

(2) It is not a compliment to a man to call him pretty. From your description I should think him rather insipid. It must be a rather silly man who will make love to a child of fifteen.

(3) He isn't much of a man to come and tell you these things. A Real man would never think of telling one girl that other girls are trying to get him away from me, nor of mean things that other girls say about her. If he was the right sort of friend he wouldn't listen to anybody saying anything against you.

Dear Mrs. Thompson: I am fourteen years of age.

(1) It is wrong to sit on a boy's lap and let him hug and kiss me as much as he wants to? If I don't let him get mad, please advise me. I do not want to break his friendship.

(2) If a girl gets mad at a fellow, who should speak first? BETH.

(1) A man always gets tired of a girl he can hug and kiss as much as he wants to. Also, a girl who lets a boy do this teaches him to think that all other girls are just as easy and simple as she is, and that when he gets interested in her he can find plenty of others to abuse him. Of course if you want to keep him kind of friendship you will let him do what he pleases. But he sure you won't keep him long. He'll be off for other girls, and besides he'll tell all his boy friends the kind of girl you are.

(2) It depends upon what she is angry about. If it is a trifling thing she can let him see that she doesn't think it's a matter to quarrel over.

It's best to wait for the man to speak first, usually. A boy is very apt to think a girl is running after him when she is too anxious to make up.

LESSONS IN DOMESTIC SCIENCE

AGRICULTURAL DEPARTMENT
WASHINGTON D. C.

CABBAGE AND WAYS OF COOKING IT.

The chief course of the family dinner usually consists of meat, potatoes and a vegetable besides the bread and butter which appear at every meal. So far as the food values of these materials are concerned, meat is depended upon to supply the protein or tissue-forming material; the bread and potatoes supply most of the starch which is one of the principal fuels of the diet, while the butter and the meat, particularly if it happens to be fatty, supply the fat, another important fuel.

That part of the meal which is commonly known as the "vegetable" (though it is no more entitled to the

name than bread or sugar) compares rather unfavorably with the other parts in the amount of food which it supplies, for often 8 or 9 parts of it in every 10 are water even before it has been cooked. Meat on the other hand seldom has more than 6 parts in 10 of water and bread less than 4 parts. But when the kinds of food which "vegetables" supply are taken into consideration they seem very important. Even some of the most watery of them, lettuce for example, of which more than 9 parts in 10 are water (providing we are speaking of the edible portion of the lettuce after the waste has been removed and it is ready for the table), supplies salts which play an important part in the body, and also cellulose. This last substance, unlike most other parts of the food (the protein, fat, starch, and sugar), is useful because it cannot be digested. This sounds strange, and it should not be taken to mean that the cellulose is harmful in any way; quite the reverse. It remains almost unchanged while it passes through the body and thus gives needed volume to the food in the intestines and tends to prevent a very common ailment, constipation. This is true except of the cellulose in the very youngest plants and in the tiny leaves in the heart of celery and lettuce, which is so tender that it digests much as starch and sugar do.

Very few poultry keepers know how much the eggs produced in their flocks cost them. They accept the common dictum that poultry is profitable, but do not know how much it costs them to produce a dozen of eggs.

On most farms it is impossible to arrive at an exact estimate of the cost of caring for the fowls kept, as because this work is a part of the general routine, but when it comes to estimating the "feed-cost" of eggs we have some very reliable figures on which to base estimates.

In the great Australian laying competitions the accounts kept show exactly how many eggs were produced.

It is quite probable that the farmer who feeds his hens properly and regularly produces eggs at a cost of about eight to ten cents a dozen. All

he receives above this price he may reckon on as profit or as pay for his men.

SEVERE ITCHING AND BURNING

Eczema Began With Pimples on Lower Limbs. Constantly Tormented. Cuticura Soap and Cuticura Ointment Cured in Ten Days.

203 Walnut St., Hillboro, Ill.—"My child had a breaking out on the lower limbs which developed into eczema. The eczema began with pimples which contained yellow corruption and from the child's clothing they were greatly irritated. They seemed to burn, which made the child scratch them, resulting in a maze of open places. They made her so cross and fretful that it was impossible to keep her quiet. They caused her to lose much sleep and she was constantly tormented by severe itching and burning."

"I tried several well-known remedies, but got no relief until I got a sample of Cuticura Soap and Ointment, which did so much good that I got a larger quantity that cured her in ten days after she had been affected for two months." (Signed) Mrs. Edith Schwartz, Feb. 23, 1913.

TO REMOVE DANDRUFF

Prevent dry, thin and falling hair, alloying and irritation, and promote the growth and beauty of the hair, frequent shampoo with Cuticura Soap, assisted by occasional dressings with Cuticura Ointment, are usually effective when other methods fail. Sold by druggists and dealers throughout the world. Liberal samples of each mailed free with 32c. skin book. Address post-card "Cuticura, Dept. T, Boston."

Men who shave and shampoo with Cuticura Soap will find it best for skin and scalp.

ROCK

Rock, June 20.—Mr. and Mrs. M. S. Kellogg entertained about sixty neighbors and friends Wednesday evening in honor of Mr. and Mrs. Neimer and Mr. and Mrs. Robert Jensen, who have come to live in this vicinity. A social time made the evening pass only too quickly. Three color ice cream and cake were served at the close of the evening.

Mr. and Mrs. Mark Baum welcomed a little daughter to their home June 29.

Took a nap in the rain and having been rained by the heavy rain.

Miss Alma Gesteland is attending summer school in Janesville.

Miss Frances Jensen is in Chicago, attending the Alumni banquet of the high school, and visiting relatives.

READY TO ASPHALT ST. LAWRENCE AVE.

Gund Graham Company Completes Paving on Four Streets.—Start Work on Ruger Avenue.

Foundation and surface stone have been laid for the street pavement on St. Lawrence avenue and the block of stone completed on Ruger avenue by employees of the Gund Graham company, contractors for the paving of four streets in the third ward.

The pavement has been completed on Garfield avenue and Carrington street, which is plain macadam. The thickness of the stone and crushed surface rock is five and three inches, five inches in the center of the street and three at the sides. The type of pavement used on these streets is called light macadam and had oil will be used to water-bind the highway.

The St. Lawrence avenue pavement will be asphalt macadam, as the immense amount of water that flows down this street in times of rain demands an excellent water-bound course. The thickness of this pavement will be nine and six inches, the top two inches being of crushed and rolled granite with a surface of asphalt, with water-binds or proofs on the paving. The workmen are ready to pour asphalt today, the work having been delayed by heavy rains of late. The stone foundation including the heavy stone, rubble, granite and screenings, have been rolled and rounded to such an extent that when asphalted St. Lawrence avenue will be one of the best streets in the city.

It is not definitely known when the work will be completed.

BIG "SAFETY FIRST" POSTERS CIRCULATED

Industrial Commission Has Distributed Signs in This City and State to Prevent Accidents.

At the request of building contractors who feel that workmen should do their share in preventing accidents, for which the employer has to pay compensation, the industrial commission is distributing a "Safety First" poster for construction work in this city and throughout the state. This poster calls attention to the most common causes of building accidents and shows how they may be avoided by greater care. Subjects mentioned are, "Make Scaffolds Safe," "Ladders," "Nail Punctures Cause Lockjaw," "Placing Material" together with the well-known safety slogans: "Please be careful that you don't get hurt—don't take a chance," "It often takes less time to prevent an accident than to report one." The poster is printed in four languages on heavy card board 22x28 inches in size, suitable for posting in the tool-shed or on the job.

JOHNSTOWN

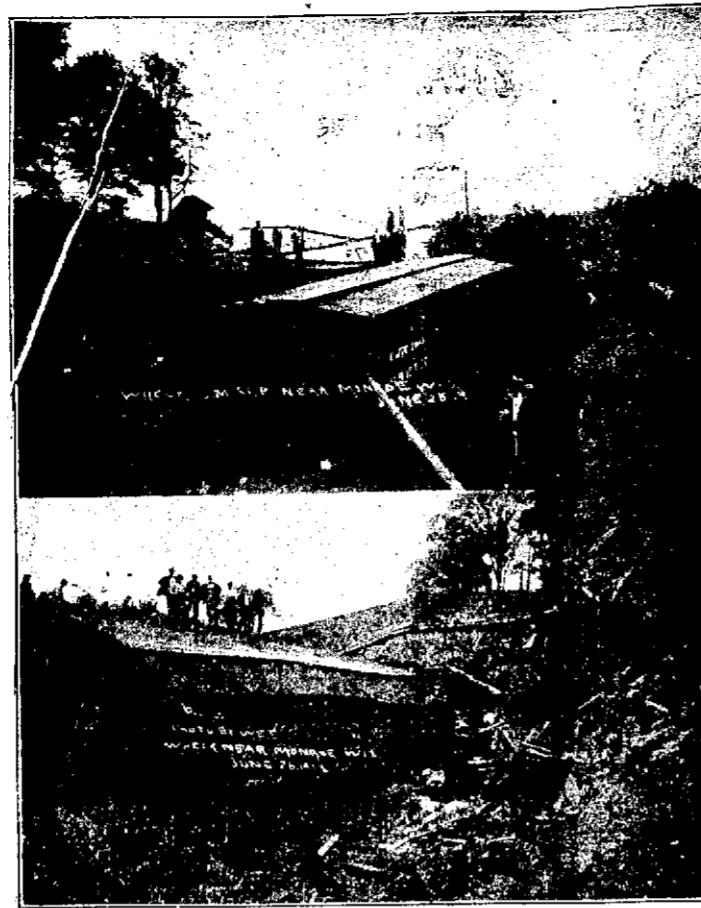

Johnstown, June 29.—The relatives and friends of this community were shocked Saturday to learn of the death of the ten year old son of Mr. and Mrs. August Krueger, who was killed by a younger brother, who was shooting a squirrel that had entered the same house, Koginowski. The strict stricken family have the sympathy of the community. Mr. and Mrs. Krueger had lived here until a few years ago.

Miss Alice Pinnow is attending summer school at Whitewater. Fishing is good at Turtle Lake. Those who went Saturday brought in a string of bass and perch.

Strawberries are nearly gone and are followed very closely by the cherries and currants, and there is going to be a good crop of raspberries.

Albert Pinnow is having a new garage erected at his home. Mrs. Will Quigley and children returned home Sunday from a week's visit at Leyden.

Seven Cars Smashed In Derailment. On St. Paul Line At Monroe, Friday

(Photo by Trukenbrod.)

Nine cars of freight train No. 92, operating on the Mineral Point division of the Chicago, Milwaukee and St. Paul railway, were derailed by a broken brake beam Friday afternoon five miles east of Monroe. Seven cars of macadam were smashed in the crash. The cars in the middle of the train of eighteen cars, caboose and locomotive, were thrown across the track and down into a steep valley. In the wreckage that jumped the track were six boxes of dynamite which were removed immediately as well as many thousand dollars worth of valuable merchandise. The track-for-a-quarter of a mile was torn up and all traffic delayed for many hours. The members of the crew were: Otto Schicker, engineer; John Price, engineer; Joe Dempsey, Owen Lloyd and Frank Blackford, brakemen; and Edward Prudeaux, conductor. The photographs were taken by W. E. Trukenbrod of Monroe.

WEST CENTER

West Center, June 29.—Chas. Hawk is making extensive improvements on his farm buildings.

Miss Dorothy Barlow of Footville and cousin, Marie Shaw, of Beloit, spent the fore part of last week at the home of the former's sister, Mrs. Jas. Adeo.

Mr. and Mrs. E. Kiesow and baby came up from Beloit Thursday evening.

Mr. Kiesow has a position in the Footville condensery, and commenced work this morning. Mrs. Kiesow was formerly Miss Alta Wutstrack.

Mr. and Mrs. Chas. Hawk entertain a lady friend from Chicago the first of last week.

Miss Lizzie Rowald of Madison is having a few days with her mother.

Miss Bebe Brown of Footville sewed for Mrs. Jas. Adeo several days last week.

The young people of the Christian church at Footville will give an ice cream social at the home of Mr. and Mrs. Oscar Brown Thursday evening, July 2nd. A good program has been prepared for the occasion. Everybody is invited to come and enjoy a pleasant evening.

COOKSVILLE

Cooksville, June 29.—Rain, rain, all the past week. Tobacco would all have been set but the land was too wet to work on. As it is the Fourth will find some tobacco still to set.

Cigar Egner had a cow killed by lightning Thursday morning.

John T. Dow and daughter Lella, from Madison, were guests of Mr. and Mrs. Will Porter from Weyauwega Thursday evening. They arrived here many years ago and came down to attend the 50th anniversary reunion.

It is years since he was here; he found a few of his old, old friends.

A good deal of damage was done by the high wind last week Tuesday.

Lewis Erickson had a windmill blown down and a tobacco shed partly unrooted.

Oscar Egner had a tobacco shed laid flat, large limbs of trees were torn off and the liberty pole lay on the ground in the morning.

Picnic day was opened with an electric storm that made us shut our eyes and dodge. About two o'clock a few of the neighbors, with those who had guests that had come to have a visit with old friends, adjourned to the church. Mr. Bowen started America and the crowd sang all the verses.

Mr. Dow was then called and responded.

In spite of his eighty-four years, his tongue has not lost its cunning.

He entertained a small audience.

At a short time in well known words, of old settlers and their habits.

In closing he was proud to say he rode a bicycle every day, weather permitting.

Miss Susan Porter then spoke of Cooksville and how she loved it, and her home here. Then a song by three girls and Alden Porter, which was good. All joined in singing "Nearest My God To Thee" and closed the picnic day. We all hope another year it will not rain all the time.

Monday evening of last week in response to invitation Fern Chapter G. E. S. went to Stoughton to a six o'clock supper.

After a sumptuous banquet all adjourned to the chapter room to witness the initiation of three candidates. The work was most beautifully done. Oregon chapter was also there, and it was a good time all through.

Mrs. James Gillies of Chetek is visiting her sister, Mrs. Porter, for a few weeks.

Saturday the men of the village, directed by Jack Robertson, raised the flag pole again, and now Old Glory will float the fourth.

Charles Arlington has returned to Magnolia having finished the cement work in Mr. Erickson's barn.

Orin Viney has just completed a silo on his farm.

Joseph Porter is preparing to build a tobacco shed. More room is needed, as about thirty acres are raised on his farm this year.

WOMAN WEAK AND NERVOUS

Finds Health in Lydia E. Pinkham's Vegetable Compound.

Creston, Iowa.—"I suffered with female troubles from the time I came into womanhood until I had taken Lydia E. Pinkham's Vegetable Compound. I would have pains if I overworked or lifted anything heavy, and I would be so weak and nervous and in so much misery that I would be prostrated. A friend told me what your medicine had done for her and I tried it. It made me strong and healthy and our home is now happy with a baby boy. I am very glad that I took Lydia E. Pinkham's Vegetable Compound and do all I can to recommend it."—Mrs. A. B. BOSCAMB, 504 E. Howard Street, Creston, Iowa.

Tons of Roots and Herbs
are used annually in the manufacture of Lydia E. Pinkham's Vegetable Compound, which is known from ocean to ocean as the standard remedy for female ills.

For forty years this famous root and herb medicine has been pre-eminently successful in controlling the diseases of women. Merit alone could have stood this test of time.

If you have the slightest doubt that Lydia E. Pinkham's Vegetable Compound will help you, write to Lydia E. Pinkham Medicine Co. (confidential) Lynn, Mass., for advice. Your letter will be opened, read and answered by a woman, and held in strict confidence.

Cypress.

Forest botanists recognize only one cypress in the United States. Its range extends from Delaware southward around the coast into Texas and up the Mississippi valley to Illinois and Indiana. It is one of the few cone-bearing trees which drop their leaves in winter. The heartwood of cypress is noted for its decay-resistant properties.

HOW FRENCH PEOPLE CURE STOMACH TROUBLE

A household remedy of the French peasantry, consisting of pure vegetable oil, and said to possess wonderful merit in the treatment of stomach, liver and intestinal troubles, has been introduced in this country by George H. Mayr, who for twenty years has been one of the leading down town druggists of Chicago and who himself was cured by its use. So quick and effective is its action that a single dose is usually enough to bring pronounced relief in the most stubborn cases, and many people who have tried it declare they never heard of anything to produce such remarkable results in so short a time. It is known as Mayr's Wonderful Stomach Remedy and can now be had at almost any drug store. It is now sold here by all druggists.

TUBERCULOSIS

In addition to plenty of fresh air and proper diet, those suffering from or who are predisposed to Tuberculosis are recommended to use Eckman's Alternative to stop night sweats, banish fever and hasten recovery. This medicine, by reason of its successful use during the past, warrants the fullest investigation possible by every sufferer. Eckman's Alternative is most efficacious in bronchial catarrh and severe throat and lung affections, and in upbuilding the system. It contains no narcotics, nor harmful or habit-forming drugs. Accept no substitutes. Sold by leading druggists. Write to the Eckman Laboratory, Philadelphia, Pa., for booklet telling of recoveries.

The Lapse of Enoch Wentworth

"I might as well tell you before you go in for anything of the sort that I will fight you legally. It would be the worst sort of business proposition to drop Miss Paget in the middle of a successful run. It is not fair to her. If an actress does the work you ask of her, she has the right to make any sort of domestic arrangement she pleases."

Wentworth's tone was conclusive. He lit his cigar again and stood silently beside his desk, blowing the smoke across the room in distinct rings. "You said you had several business matters to talk over. Is this everything for today?" He lifted his

stood for a moment staring at it blankly, then she gasped. The letter was not for her. It was addressed in coarse, shaky writing, "Mrs. Alice V. Bourne, Gotham Theater, New York." It bore the Madison Square postmark. The woman's eyes were furtively searching the gloomy theater in all directions. She did not hear a sound; nobody was in sight. She slipped the letter into her muff and ran upstairs.

CHAPTER XVII.

The Green Turquoise.

"Then," continued Dorcas, "Guleesh lifted the lady to the horse's back and leaped up before her. She put her arms about his waist and clung to him tightly. 'Rise, horse, rise,' he cried. The horse and all the hundreds of horses behind him spread out their wings and rose in the air. They went flying swiftly across the sea."

"Miss Dorcas," interrupted Robin incredulously, "I didn't know that horses could fly. I thought they trotted on the streets like this." The boy slipped down from his chair and kicked with his heels upon the floor.

"Guleesh's horse had wings—all fairy horses have wings," Dorcas laughed.

"Did you ever see a fairy horse?" "I'm afraid I never did."

"Then how do you know that it's true?"

"Fairy stories tell us so."

"Oh." The child's brown eyes turned to her eagerly. They were interrupted by a knock at the library door. Jason entered.

"I reckon yo'se awful busy dis afternoon, Missy?"

"Not if there is anything I can do for you, Jason."

"Emiline's downstairs. You know who Emiline is?" He paused and glanced at Rob.

Dorcas nodded.

"If it won't be inconveniencin' she'd like to see yo'."

"Why does she want to see me, Jason?"

"I can't tell, Missy. She's des kep' a-pleadin' fo' yo' to see her, so I tol' her, I'd ask yo'."

"I'll see her. And, Robbin, suppose you go with Jason for a little while. He keeps a doughnut jar in the pantry. Make Jason tell you a story. Flying horses are nothing to the wonderful things he has seen."

Emiline entered timidly and stood waiting until Dorcas pointed to a chair. She was a neat-looking yellow girl, but there was a worried look on her good-natured face.

"Anything wrong, Emiline?" asked Dorcas.

"Wrong! Eberytng's wrong, Mis' Wentworth. I see lef' Miss Paget fo' good en all. Lawd, what a whack she hit me when I tol' her somethings I thought!"

"She struck you?" Dorcas stared at the girl in astonishment.

"Deed, Mis' Wentworth, she struck me hard, straight 'cross my mouf wid her han'. I could take de law to her, I reckon, en git damages, but I ain't a-goin' to. I see scared to death ob havin' anyting to do wid her." The girl's face seemed to whiten, and she clasped her hands in an agony of terror. "I wouldn't wuk fo' her nobow—I'd rather go on de streets. Mis' Wentworth, her tuquoises am a-turnin' green!"

"What do you mean?"

Emiline spoke in a frightened whisper.

"Her tuquoises am a-turnin' green, I 'clar' fo' Gawd, dey is!"

Dorcas laughed. The octoroon's statement was so irrelevant it was almost funny.

"Lawdy, Mis' Wentworth, don't go to laug' on me! I reckon yo' don't know what an awful ting dat is to happen. I neber heard tell ob hit but once. Hit don't happen exceptin' when a woman's ez wicked ez de ol' serpent herself!"

"Emiline, what on earth are you talking about?"

"My granny once worked fo' a wicked lady—was back in slave days. I member hearin' her tell 'bout it when I was a little gal. Her Misses was an army lady, rich en beautiful as could be, but she done hated her husband en der was another man she was sho' set arter. Her husband, de fine ol' army man, he died sudden one night. She had er necklace on, de bluest tuquoises yo' eber see, en de next day dey turned green. Den dey found out she'd poisoned him. Dey would have hung her, but she drowned herself. De tuquoises was on her neck when dey pulled her out ob de ribber—dey was green as grass."

Dorcas shivered. "Emiline, what has this to do with Miss Paget?"

The girl's eyes grew round with ter-

ror.

"She had er necklace ob de swellest tuquoises gib her a month ago by a gemman. She's always gittin' presents fr'm gemmen. Dey was ez pale blue ez de sky when she got dem. She wears dem all de time, day and night. You see dem on her when she was actin'?"

Dorcas nodded.

"She neber takes dem off. One day I tol' her dey wasn't near ez blue ez dey used to be. She took dem to a jeweler man en he dem cleaned. Hit didn't do dem a mite ob good. Dis mornin'" Emiline paused as in terror of repeating it, "is mornin', Mis' Wentworth, ez sho' ez Gawd made me, dem tuquoises was turned green!"

Dorcas sat staring at her.

"I screamed when I set my eyes on dem." The girl's teeth chattered. "She done what was de matter, en I tol' her de story ob de ol' Colonel's Misses. Dat's when she whaled me 'cross de mouth."

"But," queried Dorcas with a puzzled frown, "what does it all mean?"

"Lawdy, dem tuquoises would have stayed sky-blue on yo', Mis' Wentworth, er on any lady dat dat won't doin' all dem kind ob wicked tings."

"Rubish!"

"I swar to de Lawd hit's true," cried Emiline appealingly. "I've heard my emma tell hit many a time."

Dorcas laughed. Although the story was absurd, her skin had grown chilly while Emiline talked.

"I'll tell yo'." The girl's voice grew intense. "Don' yo' 'member she had dem tuquoises on las' night when yo' come in wid de little blind boy? Lawd, I could er choked her dead wid my own han's! She was de ol' debil his-

self."

"I can't tell, Missey. She's des kep' a-pleadin' fo' yo' to see her, so I tol' her, I'd ask yo'."
